Cottage Information

Generator

The house is powered by a diesel generator and battery/inverter system.

The generator is programmed to run twice each day. The first is from around 8am for about an hour, and the second is from 4pm. This second period is for a variable length of time depending on how much electricity has been used throughout the day. Please note that each Monday (4pm), it is quite normal for the generator to run for an extended period, sometimes up to six hours, to give the batteries a full and proper charge.

For emergency enquiries regarding the generator or electrical system, please call 01890 820540 in the first instance, and speak with Andrew or Corinne (07866 880724). You can also contact our farm manager, Paul Turner on 07884 431672.

PLEASE DO NOT EVER BE TEMPTED TO CHARGE AN ELECTRIC VEHICLE FROM THIS PROPERTY. We have listed the local Car Charging Points under '*Local Shops and Amenities*'.

Heating and Hot Water

The hot water is set to come on in the morning and evening and the same applies to the heating during the cooler months. Please try not to alter the timed settings, as they are set to integrate with the generator run times and the solar heating system. If heating is required outside the standard set times, please use the two bottom right-hand buttons only on the programmer to set the hot water or the heating to either the 'all day' or '24-hours' setting. Please remember to set it back to 'auto' before retiring for the night. The central heating thermostat is located in the double bedroom. The overall thermostat is located in the kitchen. Each individual radiator is thermostatically controlled.

Sitting Room Fire

The sitting room fire is a wood burning stove. Paper, matches, kindling and logs are supplied. Additional logs can be found in the log box at the front of the cottage.

Cleaning Equipment

You will find cleaning products and equipment in the utility room.

Furniture

We respectfully request that you please use the provided coasters and table mats to avoid water and heat damage to the furniture, and deal promptly with any spillages on the carpets.

Damage and Breakages

We understand that accidents do happen and we ask that you please let the housekeeper know of any breakages so that she can replace the item. There is no breakages charge for smaller items, but in the event of damage to larger items of crockery, furniture, furnishings or bed linen, the cost of repair or replacement will be taken from your security deposit.

Electrical Appliances

Instruction manuals for the electrical appliances can be found in a folder in the sitting room cupboard. Please be eco-friendly when using the appliances, and try not to use more than is necessary. This will help ensure that the generator is not called upon to start and run at unsociable hours, and will save significant amounts of fuel.

Outbuildings

The wooden shed, accessed from the front of the house, is available to guests for the storage of bicycles, etc. It also houses a small chest freezer. Please do not go into the rear portion of the shed – accessed from the back of the house – which houses the batteries and inverter. Thank you.

Dogs

We understand how lovely it is to be able to bring your dogs with you on holiday. We just ask that you keep them out of the bedrooms and do not allow them on any of the soft furnishings. Please ensure you keep your dogs under control, and clear up after them at all times.

Smoking

This is a no smoking property.

Wi-Fi & Mobile Reception

The router is located on the sideboard in the sitting room.

Ideally we would rather you leave, or be in the habit of leaving, the door keys in the key safe whenever you go out for the day. This is to ensure that keys are not misplaced or lost. You would be surprised how often this happens!

Things to Do & See in the Local Area

Ford & Etal Estates

Ford & Etal Estates has so much to see and do, it will keep you busy for at least a couple of days! We recommend starting at Heatherslaw, where you will find Heatherslaw Light Railway, a working Corn Mill & Shop, Boes Café and newly arrived Raven Clay Pottery. Further information on short walks around the Estate can be gathered at the Visitor Centre.

Both villages of Ford and Etal have much to offer, places to eat and historic sites to see. At the other end of the railway track or a short walk from Heatherslaw, Etal Village boasts The Black Bull Pub, The Lavender Tearooms and Etal Castle ruin, built in the mid-14th Century. Visits to Etal Castle can be booked through English Heritage.

In Ford, we recommend seeing the Lady Waterford Hall (free of charge) and the Horseshoe Forge (it's an Aladdin's cave). Ford Village Shop sells teas, coffees and ice creams and other sundries, but notably, you can hire excellent bicycles here.

Flodden Field

Visit Flodden Field, site of the infamous battle between the English and Scots. The 500th anniversary of the battle has been commemorated with an eco-museum – www.flodden1513.com. Park at Branxton below the memorial, and follow the outdoor trail.

More information can be found at www.ford-and-etal.co.uk/attractions

Berwick-upon-Tweed

The Berwick Ramparts (4km)

Built in 1558, an easy and well-worthwhile walk around the walls of this historic garrison town.

The Maltings Theatre & Cinema

A cinema and live arts venue well worth visiting. Check their box office for the programme. The Maltings Café, with great views over the Berwick rooftops and the Tweed, is highly recommended for lunchtime and evening dining – www.maltingsberwick.co.uk

Boat Trips

Berwick Boat Trips – www.berwickboattrips.co.uk

Run seven days a week, tides and weather permitting. Check their website for timetable or private hire. Ask David and Pamela Thompson (07713 170845) about mackerel fishing, dolphins, seals, sea trips to St Abbs Head, Holy Island and one-hour or two-hour bay trips and river excursions.

North Berwick Boat Trips – www.seabird.org/boats

Book boat trips through the Scottish Seabird Centre to the Isle of May, where you will see the unusual, architecturally interesting lighthouse, operational since 1635, and large colonies of breeding seabirds, including puffins. Trips also include visits to the Bass Rock and Craigleith. You'll find lots of information on their website.

St Abbs Rib Rides – www.ribridesstabbs.co.uk

Offers fast blasts or a leisurely cruise up and down the rugged coastline.

NORTHUMBERLAND'S GREATEST ESCAPES

BARLEY HILL

Thornington Mindrum TD12 4QH

Beaches, Coastline & Hills

To the south of Berwick-upon-Tweed:

Cheswick (25mins)

Often very quiet. Miles of sand. Great for dog walks, picnics and swimming.

The Holy Island of Lindisfarne (30mins)

The Holy Island of Lindisfarne is an island accessible by a tidal causeway. It is home to the Lindisfarne Castle and Priory, and many other excitements, including The Lime Kilns and Lindisfarne Mead. The final stage of the historic St Cuthbert's Way crossing the sand by the well known Pilgrims' Crossing. Check safe crossing times before setting out.

Ross Beach (30mins)

A very long stretch of sand, great for walkers and runners. Well known for its bird life and seal population. We recommend trying the local oysters, available all year round from Lindisfarne Oysters Ltd, West House, Ross Farm – www.lindisfarneoysters.co.uk.

Bamburgh (40mins)

A world-famous beach with the impressive Bamburgh Castle towering over you. The main beach is very easily accessible from the village, but for the slightly more adventurous, we recommend heading to the far end of The Wynding by the Golf Club. Follow the steep narrow path down to a small bay. Please be aware that at peak times, Bamburgh can be incredibly busy.

Dunstan Steads (45mins)

Walk across the golf course onto Embleton Bay, one of the best surfing beaches in the area, in the shadow of the ruins of Dunstanburgh Castle.

Beadnell Bay (50mins)

Another glorious stretch of beach with a safe bay, busy sailing club and many other water sports. The cute little harbour, with lime kilns above, sits at the northern edge.

Alnmouth (1hr)

Located five miles east of Alnwick, Alnmouth is a beautiful village on the banks of The River Aln. Known for its estuary and stunning beaches, and popular for sailing.

Northumberland Coastal Path (62 miles from Berwick-upon-Tweed to Druridge Bay)

Features many of these beauty spots and includes a diversion from the coast to St Cuthbert's Cave.

NORTHUMBERLAND'S GREATEST ESCAPES

BARLEY HILL

Thornington Mindrum TD12 4QH

Beaches, Coastline & Hills

To the north of Berwick-upon-Tweed:

Eyemouth (30mins)

Best known for its bright, busy harbour and fishing industry, which dates back to the 13th Century. Alongside this, the town has a long history of smuggling. Guns Green House, once central to this activity, has been newly renovated and is worth a visit. The waterfront is part of a huge regeneration project which will transform the town.

Coldingham Bay (35mins)

A pretty little village with a small, sheltered sandy bay, perfect for young children and home to the St Vedas Surf school.

St Abbs Head (35mins)

This is the star of the trio. A thriving fishing village just over the Creel Path from Coldingham Bay. Its quaint and picturesque harbour, not only famous for its lobster and crab (Ebbcarrs Café), found fame following the filming of *Avengers: Endgame*. The rich marine coastal waters makes this a popular destination for divers and walkers. The Nature Reserve and seabird colony at St Abbs Head boasts outstanding views over a truly rugged coastline.

Cove Harbour (35mins)

A hidden gem and the first stop on the Berwickshire coastal route after Cockburnspath (my home town) is a must! Small car park, so best to avoid peak times.

Berwickshire Coastal Path (48km)

Cockburnspath to Berwick-upon-Tweed. Passes through all the above and many other glorious places, including the ruin of Fast Castle, along the way. For keen geologists, visit Siccar Point, the world famous geological outcrop known as 'Hutton's Unconformity'.

Continuing north along the coastline:

Tynninghame and Seacliffe Beaches - East Lothian (1hr 20mins)

Both beaches are well worth a day trip. Beautiful bays looking out to the Bass Rock. Tynninghame is more remote and wild, with quite some walk along a pretty woodland path to the beach.* There is limited parking for about 20 cars (£2 for the day). I'd advise arriving early. On the other hand, Seacliffe, overlooked by the mighty ruin of Tantallon Castle, has easy access right down to the beach. Good parking (3 x £1 coins) and toilet facilities.

* Directions are not well signposted. Please speak to Corinne if you want guidance before your visit.

Beaches, Coastline & Hills

Into the hills:

Halterburn Loop Walk – Kirk Yetholm (14km)

At the western fringes of the Cheviot Hills, barely a mile from The Border Hotel at Kirk Yetholm.

Yeavinger Bell – Kirknewton (5.5km)

A twin-topped Iron Age hill fort at the northern end of the Cheviots. Look out for the infamous feral goats.

The College Valley – Kirknewton

A truly wonderful unspoilt wilderness with a wealth of ancient hillfort site. There are 28 miles of paths and bridleways, and a network of cool waters including The College Burn and famous Hethpool Linn.

Those wishing to take a car beyond the free car park at Hethpool will need to pre-book a day permit (£10) www.college-valley.co.uk

The Cheviot – the highest of the Cheviot Hills (815m high)

The least complicated route is from Langleeford, Wooler (*approx a 2-3hr climb*), but there are many other routes to choose, including via Hen Hole in neighbouring College Valley. Nearing the top, climb the stile over the wall and follow the large paving stone footpath to the monument.

Humbleton Hillfort – Wooler (4km)

Follow the gentle, winding grassy path up behind the site to the top. Fantastic views for miles and beyond.

Ingram Valley

Pretty picnic spots along the Breamish River and lovely walks to the spectacular waterfall at Linhope Spout.

Castles, Country Houses & Gardens

There are many great castles, houses and gardens in the area. Some I have already mentioned. Here are a few others to consider.

Alnwick Castle and Gardens – www.alnwickgarden.com

Alnwick Castle is a fantastic day out for the whole family, and there really is something for everyone, whether you're interested in the magnificent castle and gardens, hands-on activities, eating out, outdoor events, or the castle's fascinating history dating back to Norman times. Alnwick Castle is the family home of the Duke and Duchess of Northumberland, and has appeared as a set in many film productions, including *Harry Potter* and *Downton Abbey*. We'd highly recommend a visit to the Treehouse for lunch.

Warkworth Castle – www.english-heritage.org.uk

With stunning views over both the Coquet River and the coast, Warkworth Castle is operated by English Heritage and is well worth a visit. It has a tremendously important border history and magnificent architecture, and also offers family activities and occasional outdoor events.

Howick Hall Gardens & Arboretum – www.howickhallgardens.org

Well known for its spectacular grounds and gardens and boasts a world renowned Arboretum. Covering some 65 acres, almost all of the garden has been grown from seed collected in the wild since the 1980s. An absolute must! The visitor centre provides a wealth of information about the house and grounds.

Chillingham Castle – www.chillinghamwildcattle.com – www.chillingham-castle.com

The legal season for brown trout starts on 15th March and finishes on 6th October, but in practice most clubs restrict the season from 1st April to 30th September.

Whilst it is legal to fish on Sundays (unlike salmon and sea trout), most clubs do not allow Sunday fishing. Crabtree & Crabtree (01573 226711) can also advise on local fishing, guides, instructors, and tackle hire.
